

MFC-100™

Battery-Powered Material Handling Equipment

The **MFC-100™** is ideal for lifting and moving heavy barrels, automotive towing or lifting awkward equipment. With push-button ease, operators can engage the hydraulic lift to raise the load for effortless transportation. Featuring diverse attachment options and a 15,000-pound maximum push capacity, the MFC-100 is a powerful, flexible industrial cart solution for a wide range of material handling applications.

MFC-100™

FEATURES AND BENEFITS

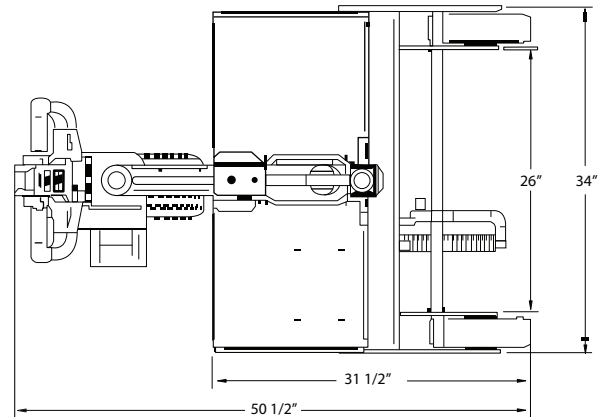

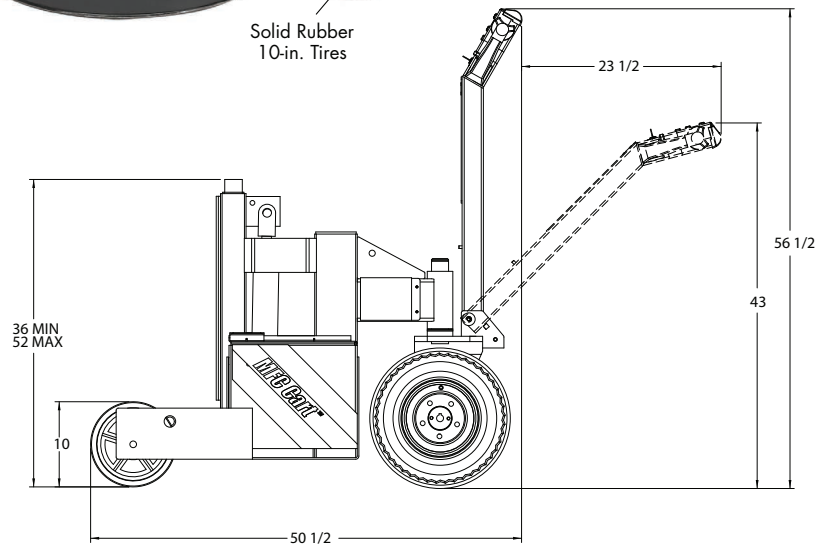

- Push/Pull up to 15,000 lbs
- Fully programmable control system with diagnostic features to adjust speed and acceleration/deceleration based on load and environment
- Fingertip control and compact sizing deliver superior maneuverability
- Built-in battery charger for long lasting operation
- Automatic braking for increased operator safety

OPTIONS

- Crane lift for heavy material handling applications
- Utility table for holding or moving awkward parts or equipment
- Versatile standard and custom attachments available - see website

SPECIFICATIONS

- **Motor type:** Hydraulic or Electric
- **Drive Mechanism:** Hydraulic or Electric
- **Controller:** N/A
- **Batteries:** (2) 12 Volt Group 27 Deep Cycle Marine
- **Battery Charger:** Built in battery charger
- **Push/Pull Capacity:** Up to 15,000 lbs.
- **Lifting Capacity:** Dependent on attachment
